

# TELEHEALTH MATURITY CONSULTING

## CHALLENGE

As healthcare confronts a post-pandemic reality of fewer staff, higher costs and more acutely ill patients, many organizations are seeking to implement a virtual care roadmap across the care continuum. They often confront a crazy quilt of technologies and processes in various departments that implemented telehealth over the years, including in the pandemic, which turned many new problems into emergency purchases.

## SOLUTION

With a blend of clinical staffing resources and technical support and a focus on innovation and sustainability, Equum seeks to de-risk virtual care maturity models. We bring together or jettison existing platforms to arrive at a telehealth plan aligned with your goals. Our proprietary algorithm configures and optimally distributes the right resources to take the guesswork out of telehealth strategic planning.

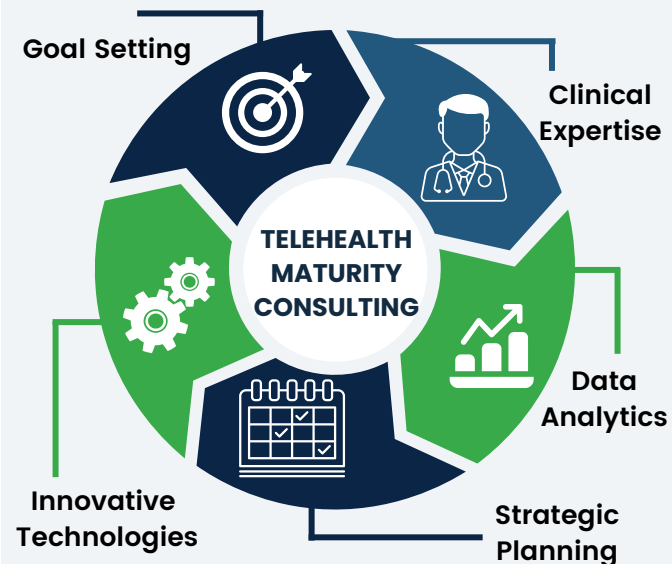

## ABOUT US

Equum Medical uses telehealth to integrate clinical expertise, data analytics, innovative technologies and transformational processes to deliver the most cost-effective care to high-acuity patients when they need it, wherever they are.

## RESULTS

DE-RISKING VIRTUAL CARE  
MATURITY MODELS  
THROUGH  
**EQUUM'S CLINICAL  
EXPERTISE**
