

# VIRTUAL NURSING

SOLVING HEALTHCARE'S GROWING  
NURSING SHORTAGE

## CHALLENGE

The global pandemic exacerbated and hastened what was already a looming nurse staffing crisis. A recent survey found that 34% of RNs planned on leaving their roles by the end of 2022, many from burnout made much worse by COVID.

## SOLUTION

Equum is expanding into tele-nursing, providing hospitals with highly experienced nurses who understand telehealth, emergent care, admissions and discharge protocols. Equum's RN's serve as a value added resource, helping the bedside team with tailored tasks to help facilitate improved admission and discharge processes as well as providing mentorship when needed.

## ABOUT US

Equum Medical uses telehealth to integrate clinical expertise, data analytics, innovative technologies and transformational processes to deliver the most cost-effective care to high-acuity patients when they need it, wherever they are.

## RESULTS

### VRN IMPROVING 3 CORE FUNCTIONS

#### Discharge

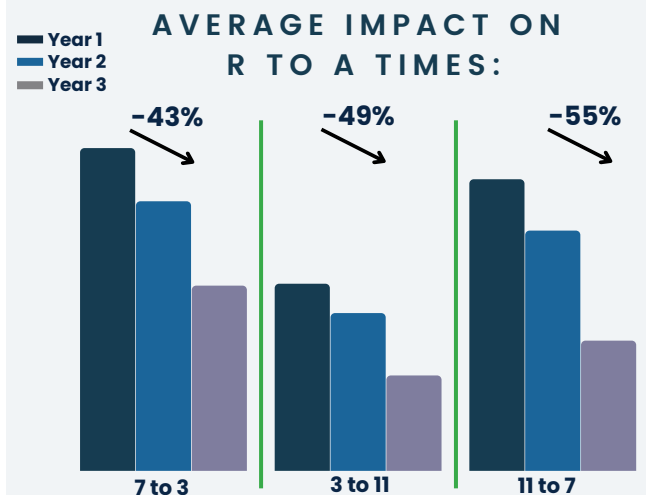

Saves ~30 minutes  
time to discharge

#### Admission

Reduced  
Admission Time
